30° Bay

45° Bay

10° Bow

- The left and right panels ("flankers") can be either double-hung or casement windows. Double-hung flankers are standard on bays and include a tilt-in feature for easy cleaning. Casement flankers can be ordered as an option on bay windows and are standard on bow windows.

- Casement flankers offer 90° "washability hinges" for easy cleaning from the inside, and a multi-point locking system for increased security.
- Casement flankers feature flush-folding crank handles that are both stylish and easy to operate.
- Center panels can be either picture windows (standard) or fixed casements (optional).

- Seatboards and headboards are 1 3/8" thick, include an insulating 5/8" foam core, are finished with stain grade oak veneer, and have a vinyl exterior for moisture protection.
